SCA Application Essay Questions

1. Why are you applying for the position of Student Career Advisor?

I am applying for the SCA position because I feel like my experience in graphic design and my drive to help others will be of value to DigiPen's Career Services. My previous background as a graphic designer and web designer means I have experience in creating effective layouts and designs for promotional materials. I believe I can use these skills to help others in Career Services, as well as any students who would like advice or help in creating marketing materials for themselves, such as resumes and cover letters. Aside from my professional background, I also love working with a team to enrich the experience of others. By participating in Career Services, I hope to contribute to a positive learning experience at DigiPen and grow, as well.

2. What do you hope to learn from this position?

As part of Career Services, I would hope to network further with students and staff at DigiPen. While I am learning what it takes to be a game designer through my formal education at DigiPen, I feel like working in collaboration would help me grow as a better member of a team. It is my hope to become more confident and comfortable working with a team of professionals. I want the opportunity to learn how to quickly connect with others and solve problems together. It is my belief that if I were to work at DigiPen it would accelerate my growth in these areas and make me a better member of the game industry in general.

3. What motivates you to be a student leader on campus?

I am motivated to be a student leader on campus because I love a challenge and the responsibility that comes with taking on new challenges. When I was a graphic designer, I had to take charge of projects and work with a team in order to accomplish our goals. I view this position at DigiPen as a chance to take what I have learned and expand it to include a larger body of people who I may not know as well. Being a student leader at DigiPen means I would get the chance to give back, like others have done for me. I would absolutely love the opportunity that this leadership position provides for me to give back to others and be a positive influence at DigiPen.
